

# Nursery 'We are Explorers' Homework Suggestions for Summer 1

Please understand that these are suggestions for you to do with your child if you wish, we will welcome any homework that comes into school but it is not compulsory.

You can submit homework as an observation via [Evidence Me](#) or hand directly to the teacher.

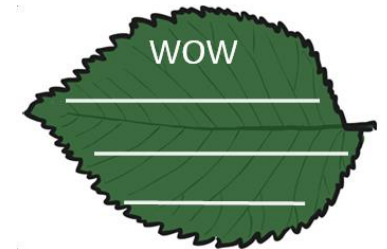

## Maths

This half-term we will be learning to recognise and name 2d/3d shapes. Go on a shape-hunt in your house. What items can you find? How will you record your discoveries? Group them, make a tally...

## Healthy Eating

Many of our favourite dishes come from around the world. What do you like to eat at home? What country does it come from? Can you try something new? Did you enjoy it?

Please complete your child's Summer 1 leaf with a recent achievement or WOW moment to add to their stem.

## Understanding the World

Tell someone in your family about a place you have visited. How did you travel there? How far away was it? What do you remember about the place?

Ask other people in your family where they have visited. Have they been to another country? Can you find it on a map and can you find some photos of what it was like?

Is it hot or cold in that place?  
Would you like to live there? Why?

## Speaking & Listening

Visit your local library to share some stories with settings around the world. What observations do they make of the places they see?

"50 things to do before you're five" is a free app full of fun suggestions for activities to try at home or in the local area to support your child's development. Download from the app store on your device.
