## Facts

Diwali is the five day festival of light, originally a Hindu festival now also celebrated by Buddhists & Sikhs. It celebrates new beginnings and the triumph of good over evil. Fireworks, family meals and the lighting of oil lamps (diyas) & lanterns mark the occasion.

Holi is a Hindu festival that celebrates spring, love, and new life. Some families hold religious ceremonies, but for many Holi is more a time for fun. It's a colourful festival, with dancing, singing and throwing of powder paint and coloured water. There are 3 primary colours and 3 secondary colours. See colour wheel.

Shadows are made by blocking light. Light rays travel from a source in straight lines. If a solid gets in the way, it stops the light rays resulting in an area of darkness behind the object.
