

Our Climate Pledge

Our first topic in UKS2 is based around our planet and how we can work together to make sure we look after it for us and future generations. We will cover issues such as:

Global warming

Sustainability

Renewable energy

Economy and trade

Reduce, Reuse & Recycle

One of your first tasks is going to be writing about one of the key figures in the fight against climate change and helping to sustain our planet.

Over the Summer, you may wish to do some reading around one of the figures who we will look at in September. Bring in any work you complete; this will help you in your English lessons.

Sir David Attenborough

A tireless advocate for environmental issues

Greta Thunberg

The school girl who sparked a revolution

Melati and Isabel Wijzen

Schoolgirls saving Bali from plastic pollution

Stella McCartney

A leader in creating sustainable fashion
