Facts about Ancient Greece

It is believed that the first Ancient Greek civilisations appeared approximately 4,000 years ago in 1600BC. The Ancient Greek Empire spread from Greece into Europe as far as France in the West.

Greek gods and goddesses were used in tales to help the Ancient Greeks learn about their world. For example, Poseidon ruled over the oceans and all bodies of water and Ares was the God of war, supporting those in battle.

Sparta was a military state and had a full time army. The Spartans were famous for their bravery and aggression and spent their whole lives training and fighting, defending their state at all costs.

The religious site of Olympia hosted the first Olympics Games in 776BC. The Statue of Zeus, one of the Seven Wonders of the World, stood there.

Archaeologists have discovered many artefacts, including pottery which was decorated with scenes of everyday life. The Romans were influenced by the buildings, statues and painting and copied them when they conquered the Greek Empire.

In 1180BC a famous legend tells how the Greeks conquered the city of Troy by hiding inside a giant wooden horse. The horse was left outside the city walls. Thinking it was a gift, the people of Troy wheeled it inside only for the Greek Soldiers to creep out and seize the city.

What did the Greeks do for us?

Ancient Greece Timeline

508 BC Male citizens of Athens are given a chance to vote in order to decide how things should be run. This is called 776 BC 'democracy' and is thought to be one of The first the Greeks greatest Olympic games
